EXPERIENCE

TRR Technologies — *Creative Technologist*

February 2019 - PRESENT

TRR Technologies is an information technology company that creates digital solutions at international level standards. I am responsible for frontend development, managing teams and interns, creating solutions for business needs.

XDevs — *Software Engineer*

July 2018 - February 2019

XDevs is an information technology company offering professional outsourcing services and creating innovative apps that suit a company's needs. I have been responsible for frontend development, managing team tasks and interns.

Xerkit — *Software Engineer*

August 2017 - July 2018

Xerkit is a Car Technology Company with a mission of bringing convenience and safety to all car owners. I have been responsible for developing mobile application and IoT circuit development.

Google Developers Group Cagayan De Oro — *Speaker / Organizer*

September 2012 - Present

Google Developer Groups are passionate leaders in their community who are dedicated to helping others learn and connect by planning and hosting meetup events. I have been a constant resource speaker that talks about various Google technologies on meetup events such as Google I/O Extended and Google DevFest.

Supreme Student Government, University of Science and Technology of Southern Philippines — *Auditor*

March 2012 - March 2013

SSG – USTP is the highest student governing body in the University. I assist the Treasurer in formulating guidelines and financial reports; Keep and update inventory of all the SSG's property.
